## BlockDAG Referral Training Manual: Recruit, Earn, Build the Future

Welcome to BlockDAG Network, the world's most advanced Layer 1 blockchain, inspired by Bitcoin's security and reimagined with Directed Acyclic Graphs (DAG) technology for unparalleled speed and scalability. As one of our 118,000+ trailblazers, you're not just holding BDAG coins—you're part of a movement to redefine decentralized finance. Our mission is to process thousands of transactions per second, empower miners, and make blockchain accessible to all. Now, it's time to amplify your impact and earnings through our enhanced referral program.

This manual is your guide to recruiting at least three people—friends, family, or crypto enthusiasts—to join BlockDAG's presale and earn 25% BDAG per referral's purchase, while they earn 5% BDAG. Follow these steps to introduce BDAG, spark excitement, and build your referral network. Let's mine the future together!

### Why Share BlockDAG?

Before you recruit, understand what makes BlockDAG the top crypto presale of 2025: – **Speed Redefined:** Our hybrid Proof-of-Work (PoW) blockchain confirms 10 blocks per second, targeting 100+, outpacing traditional chains. – **Scalability Unleashed:** Parallel processing via DAG handles thousands of transactions, ideal for DeFi, dApps, and everyday payments. – **Mining for All:** From the X1 mobile app (mine 20 BDAG daily) to X100 rigs (2,000 BDAG daily), anyone can earn. – **Community Power:** With 150 billion BDAG coins and 80% allocated to miners, your referrals join a thriving ecosystem. – **Presale Momentum:** Over \$214M raised, with early buyers seeing 2,380% ROI. Your referrals get in before the mainnet launch in 2025.

Your pitch isn't just about a coin—it's about inviting others to a decentralized future where they can grow wealth and secure rewards.

### Your Referral Rewards

Our referral program is designed to put BDAG in your pocket: – **Referrer Reward:** Earn 25% BDAG of every referral's purchase. – **Referred Person Reward:** Your referral earns 5% BDAG on their own purchase. – **Example:** Refer three friends who each buy \$5,000 in BDAG. You earn \$3,750 BDAG (25% of \$15,000), and each friend earns \$250 BDAG (5% of \$5,000). If one buys \$10,000, you earn \$2,500, and they get \$500—stack those referrals!

Act fast—our presale is nearing its end, and these rewards are time-limited.

### Step-by-Step Guide to Recruiting 3+ People

Follow these steps to recruit at least three people, introduce them to BlockDAG, and maximize your referral earnings. Each step is simple, effective, and aligned with our vision of community-driven growth.

## Step 1: Know Your Audience

- **Goal:** Identify at least three people to pitch BlockDAG to.
- **Action:**
  - Friends & Family: Think of crypto-curious contacts who trust you like a sibling who trades Bitcoin or a friend into tech trends.
  - Crypto Enthusiasts: Connect with online communities (e.g., Discord, Telegram) or local crypto meetups where altcoins are discussed.
  - Colleagues or Neighbors: Share with those interested in investments or passive income, especially if they've asked about your crypto journey.
- **Tip:** List 5–10 potential referrals to ensure you hit at least three. Focus on people open to innovation and quick opportunities.
- **Why It Works:** Personal connections trust your endorsement, and enthusiasts are primed for BlockDAG's tech edge.

## Step 2: Craft Your Pitch

- **Goal:** Create a compelling, 1-minute pitch that hooks your audience.
- **Action:**
  - Start with the Vision: "BlockDAG is the fastest Layer 1 blockchain, blending Bitcoin's security with DAG's speed to process thousands of transactions per second. It's built for DeFi and dApps."
  - Highlight the Opportunity: "The presale's raised \$214M, with 2,380% ROI for early buyers. You can join with just \$42 and mine BDAG from your phone, plus get 5% BDAG back!"
  - Add Urgency: "This is your shot before the 2025 mainnet launch."
  - Personalize: "I know you're into crypto—this is like Bitcoin in 2009, but faster. You'll earn 5% BDAG, and I'll get 25%. Want to check it out?"
- **Tip:** Practice to sound natural. Show visuals like the X1 app or World Map from [blockdag.network](https://blockdag.network) to make it pop.
- **Why It Works:** A clear, urgent pitch tied to BlockDAG's tech and BDAG rewards grabs attention and counters bonus fatigue.

## Step 3: Share the Referral Process

- **Goal:** Guide your referrals to buy BDAG and ensure you both get credited.
- **Action:**
  - Get Your Referral Code: Log into your BlockDAG Dashboard ([purchase3.blockdag.network](https://purchase3.blockdag.network)). Find your unique referral code under "Referral Earnings."
  - Explain the Purchase:
    1. Visit [blockdag.network](https://blockdag.network) and click "Buy BDAG."
    2. Connect a wallet (e.g., MetaMask) with ETH, BNB, or USDT (\$15 minimum).
    3. Enter your referral code at checkout to link their purchase and earn 25% (they get 5%).
    4. Confirm the transaction (gas fees apply).
  - Simplify: Send a direct link with your code embedded (available in your dashboard).
  - Support: Offer to guide them via call or screen-share, especially for crypto newbies.
- **Tip:** Share the MoonPay link ([moonpay.com/buy](https://moonpay.com/buy)) if they need to buy ETH/BNB/USDT. Highlight the \$15 minimum to make it easy.
- **Why It Works:** Clear steps reduce friction, and the 5% BDAG reward motivates referrals to act.

## Step 4: Overcome Objections

- Goal: Address concerns to close the deal.
- Action:
  - “Is this legit?”: “BlockDAG’s raised \$214M with 800K+ miners. Our testnet is live, and CEO Antony Turner’s team is on LinkedIn. Check [blockdag.network](https://blockdag.network) for proof.”
  - “Bonuses seem too high!”: “High bonuses reward early adopters like us. With 150B coins capped, you’re getting in at the ground floor, plus 5% BDAG back.”
  - “I’m new to crypto.”: “Start with \$15 via credit card or Apple Pay. I’ll help you set up, and you can mine BDAG on the X1 app for extra income.”
  - “What’s the risk?”: “Crypto has risks, but BlockDAG’s presale offers huge ROI potential—2,380% for early buyers. Join now with 5% BDAG back before prices rise.”
- Tip: Point to the DAGpaper v1 on [blockdag.network](https://blockdag.network) for technical credibility if they’re skeptical.
- Why It Works: Honest responses build trust, and the 5% BDAG reward sweetens the deal.

## Step 5: Follow Up and Motivate

- Goal: Ensure referrals buy and keep them engaged.
- Action:
  - Day 1: After pitching, send a follow-up: “Hey, pumped about BlockDAG? 5% BDAG back: [insert link]. Need help?”
  - Day 3: Check in: “Presale’s at \$214M and counting! Want to join with 5% BDAG back before bonuses drop? I can guide you.”
  - Post-Purchase: Celebrate: “Welcome to BlockDAG! You got 5% BDAG back, and I earned 25%. Refer friends to earn 25% yourself—here’s your code!”
  - Motivate: Share your earnings (e.g., “I made \$1,250 from one referral!”) to inspire them to refer others.
- Tip: Invite them to BlockDAG’s Telegram ([t.me/blockDAGnetworkOfficial](https://t.me/blockDAGnetworkOfficial)) for community hype.
- Why It Works: Persistent follow-ups drive conversions, and the 25%/5% structure encourages referrals to recruit more.

## Step 6: Scale to Three and Beyond

- Goal: Hit three referrals and keep going for bigger earnings.
- Action:
  - Secure Your Three: Focus on your top three prospects (e.g., a crypto-savvy friend, a family member, a colleague). Pitch, follow up, and close within a week.
  - Expand: After three, reach two more contacts or share your link in crypto groups (with admin approval) to boost volume.
  - Track Earnings: Check your dashboard daily for referral payments. Each \$5,000 referral nets you \$1,250 BDAG—stack them to hit thousands.
- Tip: Share BlockDAG’s Medium posts (e.g., “The Future Isn’t Blockchain. It’s BlockDAG”) with your link to attract more buyers.
- Why It Works: Starting small ensures success, while scaling leverages the 25% reward to grow your income.
